

Application No. 14: Handmade magnetic ropes

Author: Marnie Rogers, Firenze, Italy

Individual magnetic ropes that appeal to all ages

My Christmas Craft Project last year was to make a magnetic rope on which to hang photos, notes, cards etc for each member of my family.

Animals

Shells

The throttle-cable of a moped is highly suitable wire because it is very smooth and magnets hold well to it.

(Take a small magnet with you to the Do-It-Yourself so that you can test the holding power before buying!).

I created a loop on one end of the wire so that the wire could be hung from the wall or ceiling. On the other end, I attached a decorative object to weight the wire so that it would hang straight.

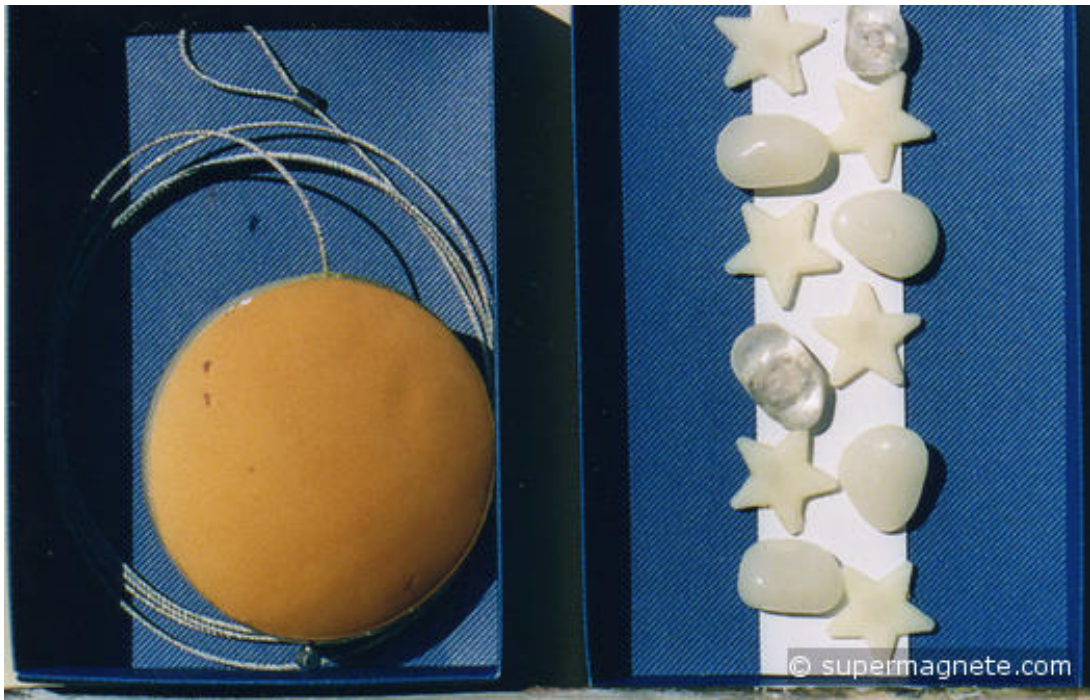

Then I looked for small objects that would suit the personality or taste of the recipient and glued your SuperMagnets on the back of each.

It was a lot of fun to create these gifts and they were also very well received!

I used disc magnets of various sizes and heights, depending on the size of the object.

Chickens

Glow-in-the-dark Sun and Stars

Spiders

Stones

Wooden cubes and spheres

Lady Bugs

Flies

The magnets were glued to the back.
This is best done with UHU plus endfest
(www.supermagnete.de/eng/M-15).

small gloves

Note from the supermagnete team: If you don't want to make your own ropes, you can purchase photo ropes (www.supermagnete.de/eng/magnets.php?group=photoropes) from our shop and use the magnets that come with them for decoration.
