

Application No. 211: Tea caddies in a niche

Author: Françoise Collomb, La Rochelle, France, collombfr@wanadoo.fr

Tea caddies don't have to be hidden in a dark cupboard!

I had a decorative idea of how to accentuate my collection of tea caddies in a niche:

I put a block magnet Q-15-15-03-N (www.supermagnete.de/eng/Q-15-15-03-N) on the inside of each caddy. That works great since these are sheet iron caddies.

Then I mounted a discreet iron bar into the wall niche and placed the caddies along the bar.

You can also attach the caddies to the refrigerator or to another metal surface.

The colourful caddies attract attention - it would be too bad if they collected dust in a cupboard!
