

## Application No. 258: Making a screen visible

Author: Anonymous

### A small measure can protect screen and people

We recently had a fly screen sliding door installed in front of our patio door.

The screen mesh is hardly visible, even when the fly screen is closed.

It happened multiple times already that we almost walked through the closed door.

The fly screen would be ruined then.

That's why we bought two sets of Flower magnets in summer colours ([www.supermagnete.de/eng/AG-03](http://www.supermagnete.de/eng/AG-03)) and attached them to the screen - a flower of the same colour on each side of the screen. Now, we always see clearly when the screen is closed and we don't have a problem anymore with invisible fly screens.

A flower on both sides of the screen - that looks good and stands out

#### Articles used

2 x AG-03 ([www.supermagnete.de/eng/AG-03](http://www.supermagnete.de/eng/AG-03))

Online since: 26/08/2009

Have you found an interesting use for our super magnets? Send us a description! If we publish it on our website, you will receive a **supermagnete voucher with a value of EUR 30**. Further Information: [www.supermagnete.de/eng/project\\_terms.php](http://www.supermagnete.de/eng/project_terms.php)
