

Application No. 273: Jewellery with magnets and iron filings

Author: Forma Design & Jewellery, M. Marzotto, Noale, Italy

Cool jewellery collection with filings and gemstones

I use your Supermagnete and iron filings for my jewellery collection. What's fascinating is the fact that the rings keep changing slightly as the iron filings rearrange themselves in the magnetic field. Also, the filings are soft to the touch on your hand. I'd like to introduce three of my pieces without disclosing the exact manufacturing process:

For this ring with gold pieces I used many iron filings (www.supermagnete.de/eng/M-22) as well as a R-27-16-05-N (www.supermagnete.de/eng/R-27-16-05-N) ring magnet.

For this ring with pearls and silver finger piece I used a Q-15-15-03-N (www.supermagnete.de/eng/Q-15-15-03-N) block magnet.

For this silver ring (bird's eye view) I also used a ring magnet (see above).

Right now I'm still looking for dyed iron filings to make my rings even more unique.

Articles used

M-22 (www.supermagnete.de/eng/M-22)

R-27-16-05-N (www.supermagnete.de/eng/R-27-16-05-N)

Q-15-15-03-N (www.supermagnete.de/eng/Q-15-15-03-N)

Online since: 08/10/2009

Have you found an interesting use for our super magnets? Send us a description! If we publish it on our website, you will receive a **supermagnete voucher with a value of EUR 30**. Further Information: www.supermagnete.de/eng/project_terms.php
