

Application No. 301: Furniture system "Tägg"

Author: Samuel Fausch, Metall Werk Zürich AG, Zürich, Switzerland

Tägg - the furniture system with a pull

The modular system Tägg is manufactured in a white-coated sheet steel and held together solely by sphere magnets (www.supermagnete.de/eng/K-13-C). Whether you use it as a counter, side board, mobile cabinet, book shelf or trade show display: Tägg is clever and a fun thing to put together.

The following pictures from a trade show and the schematic drawings show a few assembling possibilities.

A garden table is also in development, for which K-26-C (www.supermagnete.de/eng/K-26-C) sphere magnets can be used.

Here the company contact information :

Metall Werk Zürich AG

Birchstrasse 106

8050 Zürich
