

Application No. 112: Hanging up laundry

Author: T. Kaufhold, Germany

Why tenants of armoured concrete buildings are unbeatable when it comes to laundry drying

A version of the "car keys on the ceiling" (www.supermagnete.de/eng/project59):

The following application is perfect for people living in a good old reinforced concrete building (slab). I did the laundry but, unfortunately, did not have enough room to hang up the shirts. Then I had an idea: Find a nice spot on the ceiling and voilà: With a few block magnets type Q-40-20-10-N (www.supermagnete.de/eng/Q-40-20-10-N) the laundry is hanging on the ceiling.

With a larger magnet you could probably also hang up pants. Isn't that convenient? Plus, you can leave the magnets there to keep them away from credit cards and the like...:-)

Articles used

3 x Q-40-20-10-N: Block magnet 40 x 20 x 10 mm (www.supermagnete.de/eng/Q-40-20-10-N)
