

Application No. 144: Photo door with magnetic paint

Author: John Omnès, Le Plessis Robinson, France

How to turn a normal door into a personal photo wall

I painted my door with a litre of magnetic paint (www.supermagnete.de/eng/group/magnetic_paint) so I could hang up photos. Thanks to you it's finally possible.

Standard magnets are not strong enough to hold up photos on the door; the coating over the magnetic paint is weakening their strength.

I hung up photos with these magnets: rod magnets 5 x 8 mm (www.supermagnete.de/eng/S-05-08-N) and cube magnets 5 mm (www.supermagnete.de/eng/W-05-N). Now I need to take more pictures to fill up my colourful photo wall.

Articles used

S-05-08-N: Rod magnet Ø 5 mm, height 8,47 mm (www.supermagnete.de/eng/S-05-08-N)

W-05-N: Cube magnet 5 mm (www.supermagnete.de/eng/W-05-N)
