

Application No. 478: Magnetic stone

Author: D.J-M., Switzerland

A deceptively real-looking papier mâché stone

Elementary school pupils and I made this deceptively real-looking magnetic stone from papier mâché. Thanks to the magnetic disc glued on the inside, this stone can hold paper clips.

The papier-mache stone and a real stone in comparison...

Only with the help of the paperclips are we able to identify the fake stone.

Articles used

1 x S-20-05-N: Disc magnet Ø 20 mm, height 5 mm (www.supermagnete.de/eng/S-20-05-N)

WS-ADH-01: UHU MAX REPAIR (www.supermagnete.de/eng/WS-ADH-01)
