

Application No. 55: A purse full of change

Author: Claude Fiorentini, Marseille, France

Small coins always handy

Claude from Marseille likes things simple and orderly. He sends us "magnetic greetings" and writes:

"I quickly realised that one could separate the small Euro coins (1, 2 and 5 cent) from other types of coins simply by using a ring magnet (www.supermagnete.de/eng/R-27-16-05-N). This amazes the shopkeepers in my neighborhood. Now I can find these small coins very quickly amongst the other coins in my pocket.

Everything quickly in hand

A magnetic coin purse!

Thank you for providing the material for such dreams."

Note from the supermagnete team: Never keep your credit cards in the same pocket as your magnet!

Articles used

1 x R-27-16-05-N: Ring magnet Ø 26,75/16 mm, height 5 mm (www.supermagnete.de/eng/R-27-16-05-N)
