

Application No. 575: Acrobat

Author: John Bilsborough, Llanelli, United Kingdom, john@thefunnypoet.co.uk

Balances without visible support

I am a poet, a teacher and off and on an artist. I like creating small sculptures. I've been wanting to make an acrobat without visible support for a while now. Finally, I found your magnets. The diametrical ring magnets R-10-07-03-DN (www.supermagnete.de/eng/R-10-07-03-DN) work perfectly for this sculpture! The two acrobats hold their balance without visible help. The outside ring is made of wood and available in various sizes.

Articles used

2 x R-10-07-03-DN: Ring magnet Ø 10/7 mm, height 3 mm (www.supermagnete.de/eng/R-10-07-03-DN)
