

## Application No. 59: Car Keys on the Ceiling

Author: Jan Menu, Krombeke, Belgium

### Keep keys handy - and far a way from children

I use your super magnets ([www.supermagnete.de/eng/magnets\\_overview\\_raw](http://www.supermagnete.de/eng/magnets_overview_raw)) for various purposes. I discovered this practical use while walking through the house with a new super magnet. The corners and frames of our walls are magnetic because steel profiles were used in the building process.

Because I often lose my car keys or the children run off with them ;-), I positioned a Q-40-20-10-N ([www.supermagnete.de/eng/Q-40-20-10-N](http://www.supermagnete.de/eng/Q-40-20-10-N)) on the ceiling and have gotten into the habit of hanging my key chain directly onto this magnificent magnet.

Result: no more searching, no more frustration, and all thanks to your super magnets. Cool, eh?!

Note from the supermagnete team: Most keys are no longer magnetic these days. There are only a few exceptions, like mailbox keys. The rings on key chains, however, are mostly magnetic.

### Articles used

1 x Q-40-20-10-N: Block magnet 40 x 20 x 10 mm ([www.supermagnete.de/eng/Q-40-20-10-N](http://www.supermagnete.de/eng/Q-40-20-10-N))

Online since: 21/02/2008

Clunk - and the keys are taken care of!
