

Application No. 67: Invasion of the Magnetic Mice

Author: Michel Giacomelli, Liège, Belgium, michel.giacomelli@teledisnet.be

A total bustle of magnetic mice - for various applications

In my free time I like to practice wood turning. With my friend Christian Dalimier, a furniture restorer, I created a whole family of magnetic mice.

The "Minis" and "Maxis" can be used for all kinds of decorative purposes.

The "micro" mice can be used to hide any visible screws.

The "Key Chain"-Mice

Where are the magnets? We countersunk and glued various sizes of magnets into the underside of the mice : the S-06-01-N (www.supermagnete.de/eng/S-06-01-N); S-10-01-N (www.supermagnete.de/eng/S-10-01-N), S-10-02-N (www.supermagnete.de/eng/S-10-02-N), S-10-03-N (www.supermagnete.de/eng/S-10-03-N) and S-20-10-N (www.supermagnete.de/eng/S-20-10-N).

Next we're going to have to make a few magnetic cats :-).

Articles used

S-06-01-N: Disc magnet Ø 6 mm, height 1 mm (www.supermagnete.de/eng/S-06-01-N)

S-10-01-N: Disc magnet Ø 10 mm, height 1 mm (www.supermagnete.de/eng/S-10-01-N)

S-10-02-N: Disc magnet Ø 10 mm, height 2 mm (www.supermagnete.de/eng/S-10-02-N)

S-10-03-N: Disc magnet Ø 10 mm, height 3 mm (www.supermagnete.de/eng/S-10-03-N)

S-20-10-N: Disc magnet Ø 20 mm, height 10 mm (www.supermagnete.de/eng/S-20-10-N)
