

Application No. 726: Minimalistic postcard stand

Author: Martin Kaiping, Dortmund, Germany

The most simple 2-part cardholder

Simple postcard stand

This is a simple postcard stand, following the trendy "upcycle" theme.

At an angle

I like to present postcards (or even photos) at an angle - just like on an easel.

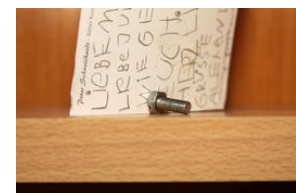

Screws or nuts

My most simple solution for that: a small cube magnet (www.supermagnete.de/eng/W-05-N) and a screw or nut. I am sure you know somehow who has a screw loose that you could use...

Varying angles

You can vary the card angle with the length of the screw. If the card is a little larger, you can also use two magnets and two screws to make it more stable.

Postcard view

And another view of a stand-up postcard.

Articles used

1 x W-05-N: Cube magnet 5 mm (www.supermagnete.de/eng/W-05-N)
