

Application No. 777: Soundproofing with egg cartons

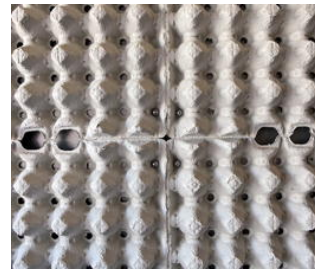

Author: Metall Werk Zürich AG, Zürich, Switzerland

A great solution for noisy open-plan offices

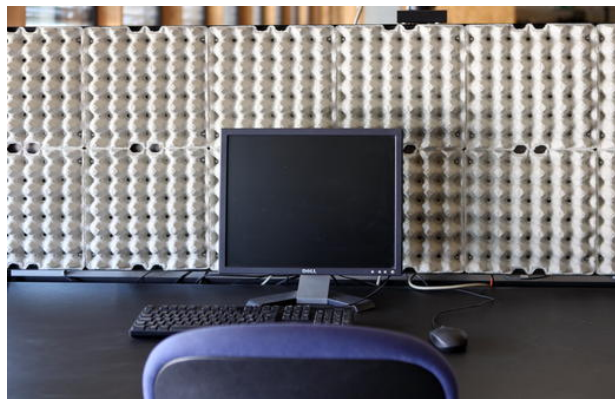

We installed an ecological and very cost-effective soundproofing in our company's newly designed open-plan offices: We attached large areas of egg cartons with strong sphere magnets (www.supermagnete.de/eng/K-10-C) on the metal cubicle walls.

The soundproofing material are cheap 30-piece egg cartons, available for instance here (www.supermagnete.de/eng/https://shop.glovital.ch/tierhaltung/zubehoer-tierhaltung/eierschachteln/huehner-eierkarton-30-er-pack-a-115-stueck).

Each carton was discreetly attached with 4 sphere magnets (one in each corner).

Articles used

K-10-C: Sphere magnet Ø 10 mm (www.supermagnete.de/eng/K-10-C)
